NEDYALKO DRAGANOV

WEB DEVELOPER

LinkedIn Github Portfolio   **nedyalkodraganov90@gmail.com**

PROFILE

A goal-oriented front-end developer with knowledge of HTML, CSS, JavaScript and React. Seeking to use technical proficiency, strong problem-solving skills and creativity to develop exceptional user experiences. As well as to leverage effective debugging, code optimisation and project collaboration capabilities. And advance in a professional career.

SKILLS

- HTML
- CSS
- Bootstrap
- TailwindCSS
- JavaScript

- React.js
- Next.js
- Redux/Redux Toolkit
- Git
- GitHub

PROJECTS

UkExpress

UkExpress is an e-commerce web app. Build on front-end development with Vite. The products are fetched and cached with Redux Toolkit Query from a dummy JSON API. Authentication is implemented via Supabase API. The project aims to showcase my ability to create a complex web app with global state management using back-end API, code splitting and optimisation.

- Technologies: Vite, TypeScript, Redux Toolkit, React Hook Form, TailwindCSS

- Accomplishment: Learn to code with TypeScript, better structure the file system, handle global state management and implement authentication with the help of a back-end API.

DevGuide

DevGuide is a platform that provides educational events for developers. It features a navigation bar with links to front end, back end and full stack events. My choice for data storage is Firebase. The project aims to showcase my knowledge and ability to use client-side and server-side rendering using NEXT.JS.

- Technologies: NEXT.JS, Firebase

- Accomplishment: A better understanding of client-side and server-side rendering. Create a database using a back-end API.

GeoQuiz

GeoQuiz is a project I've done for Learning People course. Features navigation, about, how to play and the quiz sections. The quiz section contains the questions, time and score trackers and plays sounds for correct and incorrect answers. After the completion of the quiz, a summary report is displayed. The project aims to showcase my knowledge and ability to build a JavaScript interactive website.

- Technologies: HTML, CSS, Bootstrap, JavaScript

- Accomplishment: Create an app with JavaScript.

Sneakers

Sneakers is a project I've done for Learning People course. It's an e-commerce web app. The web app features navigation with links, cart and user avatar, lightbox gallery, buttons for the product quantity, add to cart button and a cart modal with a delete option. The project aims to showcase my knowledge and ability to build a React app.

- Technologies: ReactJS, Redux, MUI

- Accomplishment: Create an app with React and how to use the npm manager.

EDUCATION

Certificates

The Ultimate React Course 2024: React, Redux & More by Jonas Schmedtmann

Modules — ReactJS(in-depth) | Redux and Redux Toolkit | ReactQuery | TailwindCSS | Styled Components

Skillsoft via Learning People Global UK - Frontend Web Development 2022 - 2023

Modules — HTML and CSS | JavaScript | ReactJS | Git and GitHub

The Complete 2023 Web Development Bootcamp by Angela Yu 2023

Modules — HTML | CSS | Bootstrap | JavaScript | ReactJS | NodeJS/ExpressJS | MongoDB/ Mongoose | PassportJS

Diplomas

Asen Zlatarov Collage of Tourism Burgas, Bulgaria - Professional Bachelor's degree 2009 - 2012
